NOTICE OF PUBLIC HEARING

concerning

**RENEWAL OF WASTE DISCHARGE REQUIREMENTS
(NPDES NO. CA0081558)**

For

**CITY OF MANTECA AND DUTRA FARMS, INC.
WASTEWATER QUALITY CONTROL FACILITY
SAN JOAQUIN COUNTY**

The City of Manteca is the owner and operator of the City of Manteca, Wastewater Quality Control Facility (Facility), a publicly-owned treatment works located at 2450 West Yosemite Avenue, Manteca, California. The Facility provides sewerage services for the City of Manteca and portions of the City of Lathrop, serving a population of approximately 87,000. The Facility provides tertiary treatment for up to 9.87 million gallons per day. Treated wastewater from the Facility is discharged to the San Joaquin River, a water of the United States, within the Sacramento-San Joaquin Delta. In addition, undisinfected secondary effluent and treated food processing wastewater is reused for feed and fiber crops on 190 acres of City-owned land surrounding the Facility and 70 acres owned by Dutra Farms Inc.

Discharges from the Facility are currently regulated by Waste Discharge Requirements Order R5-2009-0095, issued by the Central Valley Regional Water Quality Control Board (Central Valley Water Board) on 8 October 2009. An Order is proposed to renew the NPDES permit. The proposed permit renewal includes new or revised effluent limitations for ammonia, bis (2-ethylhexyl) phthalate, diazinon, chlorpyrifos, electrical conductivity, total mercury, methyl mercury, and pH. In addition, the effluent limitations for copper, aluminum, and foaming agents (MBAS) have been removed, because the discharge does not demonstrate reasonable potential to cause or contribute to an instream exceedance of the applicable water quality objectives.
